## Comment:

## Interpretation:-

- Limit of detection (LOD) = 1 copy/μL
- The ICMR registered ID of Strand Life Sciences Private Limited is STLSPRLBK
- As per the MOH / ICMR Guidelines, all samples are registered in the portal and results also updated on ICMR portal
- The test results of this assay are for clinical reference only. The clinical diagnosis and treatment of patients should be considered in conjunction with their symptoms, medical history and other laboratory tests.
- Improper sample collection, handling and transportation and low sample concentration may cause false negative results
- Variations in the target sequence of the novel corona virus (COVID-19) or sequence changes caused by other reasons may lead to false negative results. Negative result does not rule out the possibility of COVID-19 infection. False Negative result may be seen in samples collected too early or too late in infection and samples outside of viremic phase. Repeat specimen collection may be considered after 2-4 days of testing.
- All controls are found to be satisfactory.
